

LowCVP Media Release 4 August 2017

First short-list for 2017 LowCVP Low Carbon Champions Awards announced!

The Low Carbon Vehicle Partnership (LowCVP) has announced the shortlist for the first two categories of the 2017 edition of the prestigious Low Carbon Champions Awards. The Champions Awards celebrate innovation and best practice in the UK's accelerating drive to cut carbon emissions from the road transport sector. Table bookings for the celebration gala dinner – which will take place alongside Energy 2017 at the NEC on 11 October – are now being taken.

Short-listed entrants to the **Low Carbon Car/Van Manufacturer of the Year** (sponsor: Michelin) are:

- **Groupe Renault UK**, following its introduction of the new Renault Kangoo Z.E.33 and Renault ZOE Z.E.40 with enhanced range
- **London Taxi Company**, for making the world's first purpose-built, mass-market electric taxi
- **Toyota (GB) PLC**, for being a global leader in hybrid sales and technology

And in the **Low Carbon Heavy Duty Vehicle Manufacturer of the Year** are:

- **BYD UK**, for the introduction of over 50 electric buses to London and other cities
- **IVECO Ltd**, for offering an extensive range of alternatively fueled commercial vehicles
- **Volvo Group UK**, for development of a pioneering range of hybrid, electric hybrid and full electric vehicles

The Awards are in their seventh year and will, for the first time, be hosted alongside Energy 2017, the largest UK event of its kind. The Awards will be presented at a gala dinner at the Concourse Suites 1 & 2, NEC, Birmingham on the evening of Wednesday October 11.

Commenting on this year's Awards shortlist, the LowCVP Managing Director Andy Eastlake said: "It's been another exciting year, with further progress on the electrification agenda and enhanced commitments from Government to the low carbon transport sector.

"I commend all those organisations that have made this year's shortlist and look forward to a great celebration on 11 October, when we'll announce the winners."

Background information

The LowCVP Low Carbon Champions Awards celebrate outstanding and innovative practice in the UK in accelerating the shift to lower carbon vehicles and fuels and reducing road transport emissions. The LowCVP Low Carbon Champions Awards are one of a select few sustainable development awards schemes to have received accreditation by the Royal Society of the Arts (RSA), which enables category winners to go forward to the European Business Awards for the Environment (EBAE).

The other awards categories will be announced as below:

On **Friday 18 August**:

- Low Carbon Vehicle Operator of the Year (sponsor: BAE Systems)
- Low Carbon Fuel Initiative of the Year (sponsor: Shell)

On **Friday 1 September**:

- 2017 Award for Low Carbon Innovation by an SME (Sponsor: Advanced Propulsion Centre)
- Low Carbon Road Transport Initiative of the Year
- 2017 Outstanding Low Carbon Publication or Report

There are two special awards categories for which there is no shortlist; winners announced on the night)

- Outstanding Individual in Promoting Low Carbon Transport
- 'Grand Prix': Outstanding Achievement in Low Carbon Transport (*Sponsor: Millbrook*)

The **LowCVP** (www.lowcvp.org.uk), which was established in 2003, is a public-private partnership that exists to accelerate a sustainable shift to lower carbon vehicles and fuels and create opportunities for UK businesses. Nearly 200 organisations are engaged from diverse backgrounds, including automotive and fuel supply chains, government, vehicle users, academics, environment groups and others. Follow the LowCVP on Twitter: @theLowCVP

The largest event of its kind in the UK, **Energy 2017** will include information and guidance on low carbon vehicles and the business opportunities they can offer. The three-day show will bring together energy suppliers and managers, manufacturers, developers, consultants, distributors, engineers, architects, FM professionals and end-users, offering them an ideal platform to find out about the latest energy-based trends and uncover innovative new products and solutions.
